PROFESSIONAL SUMMARY

Professional bilingual voiceover artist with extensive experience delivering clear, engaging, and authentic narration in both American English and Cuban Spanish. With a voice that is trusted for corporate training, e-learning courses, audiobook narration, explainer videos, YouTube narration, IVR/telephone systems, commercials, and faith-based media. I combine professional vocal delivery with a deep understanding of adult learning principles, ensuring that every recording is both engaging and effective.

Drawing on more than eight years of instructional design and e-learning development experience, I specialize in transforming complex information into compelling audio that educates, informs, and inspires.

I am currently receiving a positive client testimonial from First Church Charlotte for producing the professional voiceover intro and outro currently featured on their podcast series, reflecting my commitment to broadcast-quality audio, reliability, and exceptional client service.
